

Cylinder bay Technician:

Air Atlanta Aviaservices Ltd is a Maintenance, Repair and Overhaul facility situated in Crawley, West Sussex, adjacent to LGW. We specialise in the repair and overhaul of wheels, safety equipment, galley equipment and ELT's

We are looking for experienced cylinder / safety equipment technicians to join our expanding team. Must have previous experience in a Cylinder shop, overhauling and refilling mixed gas and / or oxygen cylinders.

Location – Crawley, UK

Salary: £25-32k depending on experience

Purpose:

To test, repair and overhaul cylinder and valve assemblies.

Main Tasks:

- Strip down valve assemblies
- Replace standard spares as per OEM Component Maintenance Manual
- Inspect piece parts and replace defective items
- Rebuilding of valve components once cleaned and defective parts replaced
- Testing of valve assemblies.
- Hydrostatic testing of cylinder in accordance with DOT requirements.
- Re-assembly and charging of cylinder and valve assembly.

Qualifications

- Numerate and Literate – minimum GCSE Maths & English
- Engineering qualification would be beneficial.

Experience

- Previous experience working with Oxygen / Mixed Gas Charging, Valve overhaul and repair is essential.
